Summary

MCA student skilled in Java, DSA, and full-stack development using React and React Native, with experience building real-time and AI-powered applications. Passionate about solving real-world problems through efficient and modern technologies.

Education

Pimpri Chinchwad College of Engineering (PCCOE) Sep 2025 – 2027
Master of Computer Applications (*SGPA: 8.2*) Pune, India

MGM's College of CS & IT Jun 2021 – Nov 2024
B.Sc. in Computer Science (*CGPA: 8.22*) Nanded, India

Shri Sant Gadge Maharaj College, Loha 2020 – 2021
Higher Secondary Education (*Percentage: 81.17%*) Loha, India

Prataprao Patil Madhyamik Vidyalay, Harsad Pati 2018 – 2019
Secondary School Education (*Percentage: 70.80%*) Harsad, India

Projects

PeekSathi - Agri advisory platform with AI-assisted diagnosis

React Native (Expo), Python, ONNX, Gemini 1.5 Flash, Firebase, Firestore

- Built a cross-platform mobile application enabling farmers to detect crop diseases in real-time using smartphone images.
- Deployed an EfficientNet-B0 ONNX model achieving 99.86% accuracy across 19 disease classes and 8 major crops.
- Engineered a hybrid AI pipeline using ONNX for primary inference and Gemini 1.5 Flash for low-confidence expert diagnosis.
- Integrated Firebase Authentication, Firestore, and offline-first local sync for secure and reliable data management.
- Delivered Marathi-language treatment recommendations, agricultural insights, and disease history for enhanced farmer accessibility.

Contest Generator – Real-time Coding Contest Platform

Next.js 14, TypeScript, Supabase, Judge0 API, Monaco Editor

- Built real-time DSA contest platform supporting 200+ users with instant code execution and live leaderboard.
- Integrated Judge0 API for secure code execution in C, C++, Java, and Python.
- Built Monaco Editor with custom syntax highlighting and language configurations.
- Used Supabase for auth, PostgreSQL scoring, participant management and real-time sync.
- Added anti-cheat features including tab-switch detection and automated grading.

DailyDiary.in - Encrypted Personal Journaling Platform

Next.js 16, TypeScript, Node.js, Express.js, Firebase, Prisma ORM, Neon PostgreSQL, Zustand

- Built a full-stack encrypted journaling platform using monorepo architecture with Next.js frontend and Express.js REST API backend.
- Implemented AES-256-GCM encryption for diary entries, ensuring secure end-to-end protection and user-specific data access.
- Developed 7+ dynamic journaling templates including Gratitude, Productivity, Finance, and Self-Care using JSONB schema in PostgreSQL.
- Engineered gamification features such as streak tracking, achievement badges, and 7/21/30-day journaling challenges.
- Integrated Firebase Authentication, Firebase Storage, and JWT-based protected APIs for secure identity management and image uploads.

Achievements

- Solved 200+ DSA problems on LeetCode
- 5-Star in Java and 3-Star in SQL on HackerRank

Technical Skills

Languages: Java, Python, SQL, JavaScript, TypeScript

Full Stack: React, React Native, Next.js 14, HTML5, CSS3, Bootstrap, Node.js, Firebase, Supabase, PostgreSQL

AI/ML: LLM Integration, Prompt Engineering, RAG Pipeline, Image-based AI Diagnosis

Tools: Git, GitHub, VS Code, Expo

APIs: OpenAI API, REST APIs, Judge0 API

Certifications

- Java (Basic) Certification – [HackerRank](#)
- SQL Certification – [HackerRank](#)

Leadership Experience

- **Coordinator, INSPERIA – Decode to Code Event**
- Organized a coding competition with 30+ teams, handling registrations, coordination, and execution.
- **Volunteer, Kshitij 2026 – 5th Patentable Project Exhibition, PCCOE**
- Coordinated event operations, participant management, and technical exhibition activities, supporting the successful execution of an innovation showcase featuring AI, robotics, and sustainable technology projects.

Languages

Marathi, English, Hindi
